## Science Fair Abstract 5 Questions to answer before you begin

| 1. What | was your topic and why did you choose it? |
|---------|---|
| -       |   |
|         |   |
|         |   |
|         |   |
| -       |   |
| -       |   |
|         |   |
| 2. What | was your hypothesis?                      |
|         |   |
| -       |   |
| -       |   |
|         |   |
| -       |   |
| -       |   |
| -       |   |
| 3. What | did you do for your experiment?           |
| -       |   |
| -       |   |
| -       |   |
| -       |   |
| -       |   |
| -       |   |
| -       |   |

| Vhat happened i  | n your experimen  | t?   |      |      |
|------------------|-------------------|------|------|------|
|                  |                   |      | <br> | <br> |
|                  |                   |      |      |      |
|                  |                   |      | <br> | <br> |
|                  |                   |      |      |      |
| Vhat did you lea | rn from your proj | ect? |      |      |
|                  |                   |      | <br> | <br> |
|                  |                   |      |      |      |
|                  |                   |      |      |      |
|                  |                   |      |      |      |
|                  |                   |      |      |      |
|                  |                   |      |      |      |
|                  |                   |      | <br> | <br> |
|                  |                   |      | <br> | <br> |
